PLANT AND SOIL

UNIVERSITY OF HAWAII LIBRARY

LIBRARY USE ONLY

**International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.**

**Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.**

**Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.**

*Issued under the auspices of the*

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

**Executive Editors:** D. I. Arnon, Berkeley; J. Baeyens, Louvain; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen; L. K. Wiersum, Haren.

**Secretary:** G. H. Arnold, Institute for Soil Fertility, Haren (Gr.), Netherlands.

**Assistant Secretaries:** J. K. Smit, Epe, and A. Houwers, Wageningen.

**Consulting Editors**; Wm. A. Albrecht, Columbia, Mo.; R. Brouwer, Utrecht; A. van Diest, Wageningen; W. Dijkshoorn, Wageningen; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Oxford; J. den Holder, Ghent; S. Larsen, Copenhagen; J. Lavollay, Paris; L. Leyton, Oxford; T. A. Lie, Wageningen; W. J. Lütjeharms, Bloemfontein; E. Melin, Uppsala; M. Ødelien, Ås; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, Reno.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

*Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel*

## CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

P. Adams and G. W. Winsor, Analysis of soil solution as a guide to the nutrient status of glasshouse soils . . . . . 649

N. Ahmad, I. S. Cornforth and D. Walmsley, Methods of measuring available nutrients in West Indian soils. III. Potassium . . . . . 635

Hussian Al-Saadi and Herman H. Wiebe, Survey of the matric water of various plant groups . . . . . 253

D. Alt und W. Schwarz, Bor-Toxizität, Bor-Aufnahme und Bor-Verteilung bei jungen Gurkenpflanzen unter dem Einflusz der N-Form . . . . . 277

F. Anter, M. H. Hilal and A. H. El-Damaty, A chemical and biological approach towards the definition of calcareous soils. II. Plant growth, $P^{32}$ and Fe uptake as affected by percentage of calcium carbonate fraction . . . . . 479

A. Monem Balba and T. H. Sheta, Nitrogen balance sheet of $(NH_4)_2SO_4$-gypsum pellets and mixtures and ureaformaldehyde applied to corn in pots of sand . . . . . 293

R. O. Barnard, W. J. Fölscher and P. C. J. Oberholzer, *Short communication.* The uptake of Zn, Mn, Cu and B from spray mixtures by navel orange leaves . . . . . 429

L. S. Bates, R. P. Waldren and I. D. Teare, *Short communication.* Rapid determination of free proline for water-stress studies . . . . . 205

J. G. Bhatt and K. N. Indirakutty, *Short communication.* Salt uptake and salt tolerance by sunflower . . . . . 457

Z. H. Bhuiya and D. F. Rothwell, *Short communication.* Conversation of DDT to DDD in flooded soil . . . . . 193

P. M. Bonish, Pectolytic enzymes in inoculated and uninoculated red clover seedlings . . . . . 319

John E. Bowen, Kinetics of zinc absorption by excised roots of two sugarcane clones. . . . . 125

Eugene Brams, *Short communication*. Soil organic matter and phosphorus relationships under tropical forests . . . . . 465

L. Chandramohan, D. Purushothaman and R. Kothandaraman, Soil phenolics and plant growth inhibition . . . . 303

Barney W. Cornaby and Jack B. Waide, *Short communication*. Nitrogen fixation in decaying chestnut logs . . . . 445

Teresa Crisanto and C. D. Sutton, Measurement of available phosphate content of some Spanish soils . . . . . 399

S. M. Elgawhary and S. A. Barber, Measurement of uptake of chelated and unchelated Ca and Sr from solution culture . 581

F. B. Ellis and B. T. Barnes, Estimation of the distribution of living roots of plants under field conditions . . . . . 81

M. H. A. El-Shakweer, A. S. Abdel-Ghaffar and M. A. Barakat, Nitrogen balance studies for different Egyptian soils cropped with corn . . . . . 341

Bodil Friis-Nielsen, Growth, water and nutrient status of plants in relation to patterns of variations in concentrations of dry matter and nutrient elements in base-to-top leaves. I. Distribution of contents and concentrations of dry matter in tomato plants under different growth conditions. . . . 661

Bodil Friis-Nielsen, Growth, water and nutrient status of plants in relation to patterns of variations in concentrations of dry matter and nutrient elements in base-to-top leaves. II. Relations between distribution of concentrations of dry matter and nutrient elements in tomato plants . . . . . 675

G. J. T. Frith, D. G. Nichols and D. L. Jones, *Short communication*. Induction of multiple root systems in apple seedlings by radicle splitting . . . . . 691

L. E. Gray and J. W. Gerdemann, *Short communication.* Uptake of sulphur-35 by vesicular-arbuscular mycorrhizae 687

J. L. Gugino, F. A. Pokorny and F. F. Hendrix ,Jr., Population dynamics of *Pythium irregulare* Buis. in container-plant production as influenced by physical structure of media . . . . . 591

Umesh C. Gupta, J. A. MacLeod and L. B. MacLeod, Effects of aluminium, manganese, and lime on toxicity symptoms, nutrient composition, and yield of barley grown on a podzol soil . . . . . 413

M. H. Hilal, F. Anter and A. H. El-Damaty, A chemical and biological approach towards the definition of calcareous soils. I. Movement and retention of $P^{32}$ in soils as affected by percentage and particle size of calcium carbonate fraction . . . . . 469

J. H. Hoglund, Bimodal response by nodulated legumes to combined nitrogen . . . . . 533

W. B. Ipinmidun, Assessment of residues of phosphate application in some soils of northern Nigeria. I. Examination of L and E values . . . . . 213

A. Islam and W. Islam, Chemistry of submerged soils and growth and yield of rice. I. Benefits from submergence . . 555

A. Islam and S. M. Ullah, Chemistry of submerged soils and growth and yield of rice. II. Effect of additional application of fertilizers on soil at field capacity . . . . . 567

Daniel W. Israel, Joel E. Giddens and William W. Powell, The toxicity of peach tree roots . . . . . 103

V. Iswaran, A. Sen and Rajne Apte, *Short communication. Azotobacter chroococcum* in the phyllosphere of water hyacinth (*Eichhornia crassipes* Mort. Solms) . . . . . 461

J. R. Jorgensen and C. G. Wells, The relationship of respiration in organic and mineral soil layers to soil chemical properties. . . . . 373

F. M. Kishk, M. N. Hassan, I. Ghanem and L. El-Sissy, Status of copper in some calcareous and non-calcareous soils of Egypt . . . . . 487

Fawz M.y Kishk and M. N. Hassan, Sorption and desorption of copper by and from clay minerals . . . . . 497

W. L. Kretovich, V. I. Romanov and A. V. Korolyov, *Rhizobium leguminosarum* cytochromes (*Vicia faba*) . . . . . 619

A. B. Lloyd and M. Jane Sheaffe, Urease activity in soils 71

Sudha Mall, Studies on microbial antagonism in rhizosphere soils of potato varieties differentially susceptible to black-scurf and wilt . . . . . 547

S. McIntosh, P. Crooks and K. Simpson, The effects of applied N, K and Mg on the distribution of magnesium in the plant . . . . . 389

R. S. Mehrotra and G. R. Claudius, *Short communication.* Effect of chemical amendments and foliar application on lentil wilt. . . . . 695

Greg A. Minton and R. H. Wilson, The effect of Ba ions on the growth and mitochondrial metabolism of Mung bean seedlings . . . . . 611

J. L. Neal, Jr., Ruby I. Larson and T. G. Atkinson, *Short communication.* Changes in rhizosphere populations of selected physiological groups of bacteria related to substitution of specific pairs of chromosomes in spring wheat. . . 209

H. Nishita, R. M. Haug and G. V. Alexander, Influence of organic matter on the availability of certain elements to barley seedlings grown by a modified Neubauer method . 161

Hans Nômmik, The effect of pellet size on the ammonia loss from urea applied to forest soil . . . . . 309

J. J. Onderdonk and J. W. Ketcheson, Effect of soil temperature on direction of corn root growth . . . . . 177

P. E. Onuorah, *Short communication.* Pythium seed decay and stem rot of cowpea (*Vigna sinensis* [Linn.] Savi) in southern Nigeria . . . . . 187

D. P. Ormrod, N. O. Adepipe and G. Hofstra, *Short communication*. Ozone effects on growth of radish plants as influenced by nitrogen and phosphorus nutrition and by temperature . . . . . 437

P. I. Orphanos, *Short communication*. On the determination of soil carbon . . . . . 706

K. V. Paliwal and K. K. Mehta, Interactive effect of salinity, SAR and boron on the germination and growth of seedlings of some paddy (*Oryza sativa*) varieties . . . . . 603

R. P. Pareek and A. C. Gaur, *Short communication*. Organic acids in the rhizosphere of *Zea mays* and *Phaseolus aureus* plants . . . . . 441

Carlos A. M. Portas, Development of root systems during the growth of some vegetable crops . . . . . 507

H. J. van Praag et N. Brigode, Cycle interne de l'azote et du soufre dans les horizons humifères forestiers des sols bruns acides. I. Cycle interne de l'azote et effet de la température 35

H. J. van Praag et N. Brigode, Cycle interne de l'azote et du soufre dans les horizons humifères forestiers des sols bruns acides. II. Effet pertubateur du saccharose dans l'étude du cycle interne de l'azote . . . . . 49

H. J. van Praag, Cycle interne de l'azote et du soufre dans les horizons humifères forestiers des sols bruns acides. III. Cycle interne du soufre . . . . . 61

Jose Tarquinio Prisco and James W. O'Leary, The effects of humidity and cytokinin on growth and water relations of salt-stressed bean plants . . . . . 263

D. Purves and E. Jean Mackenzie, Effects of applications of municipal compost on uptake of copper, zinc and boron by garden vegetables . . . . . 361

S. S. S. Rajan, Phosphorus adsorption characteristics of Hawaiian soils and their relationships to equilibrium phosphorus concentrations required for maximum growth of millet . . . . . 519

K. M. Ramanathan and K. K. Krishnamoorthy, Nutrient uptake by paddy during the main three stages of growth . 29

V. Ranga Rao, N. S. Subba Rao and K. G. Mukerji, *Short communication.* Inhibition of Rhizobium *in vitro* by non-nodulating legume roots and root extracts . . . . . 449

J. Remacle and Ch. Vanderhoven, *Short communication.* Evolution of the carbon and nitrogen contents in incubated litters. . . . . 201

J. Schiffmann and Rina Löbel, Seasonal changes in symbiotic nitrogen fixation and haemoglobin content in nodules of peanuts . . . . . 329

J. Shalhevet and B. Yaron, Effect of soil and water salinity on tomato growth . . . . . 285

U. C. Shukla, S. K. Arora, Zile Singh, K. G. Prasad and N. M. Safaya, *Short communication.* Differential susceptibility in some sorghum (*Sorghum vulgare*) genotypes to zinc deficiency in soil. . . . . 423

Sarjit Singh, P. S. Jaiswal, N. K. Saini and Kuldeep Verma, *Short communication.* The effect of gamma BHC on response of sugarcane to nitrogen, in relation inherent soil fertility. . . . . 703

M. A. Singlachar and R. Samaniego, Effect of flooding and cropping on the changes in the inorganic phosphate fractions in some rice soils . . . . . 351

K. W. Smilde, Phosphorus and micronutrient metal uptake by some tree species as affected by phosphate and lime applied to an acid sandy soil . . . . . 131

George Stanford, J. O. Legg and S. J. Smith, Soil nitrogen availability evaluations based on nitrogen mineralization potentials of soils and uptake of labeled and unlabeled nitrogen by plants . . . . . 113

Shanker Bhat Sullia, *Short communication.* Effect of root exudates and extracts on rhizosphere fungi . . . . . 197

I. T. Twyford and D. Walmsley, The mineral composition of the Robusta banana plant. I. Methods and plant growth studies . . . . . 227

Igbo Unamba-Oparah, Fertilizer applications and the organic matter status in the Agege experimental field in Nigeria . 1

Andrew P. Uriyo and Abbas Kesseba, *Short communication.* The use of $HClO_4$ in the determination of reductant soluble iron phosphate in soil . . . . . 699

L. M. J. Verstraeten and K. Vlassak, The influence of some chlorinated hydrocarbon insecticides on the mineralization of N fertilizers and plant growth. . . . . 15

James Vlamis and D. E. Williams, Manganese toxicity and marginal chlorosis of lettuce. . . . . 245

J. P. Voets, M. Meerschman and W. Verstraete, *Short communication.* Microbiological and biochemical effects of the application of bitumenous emulsions as soil conditioners 433

A. Wallace, E. F. Frolich and G. V. Alexander, *Short communication.* Effect of steam sterilization of soil on two desert plant species . . . . . 453

D. Walmsley and I. S. Cornforth, Methods of measuring available nutrients in West Indian soils. II. Phosphorus. . 93

Carolyn Williams and I. Thornton, The use of soil extractants to estimate plant-available molybdenum and selenium in potentially toxic soils . . . . . 149
